

I request that those making decisions about the LPFM consider what stations like K-Love do for the local community. I support the station because it gives quality news, personalities, and music. If it were a local station, it would not be able to afford the quality that it delivers. I also enjoy being able to listen to K-Love in other areas where I travel and to know that friends in other areas are listening to the same news, music, and information. I feel that it does connect to the local community and I would like to keep it.
